

MYKITA

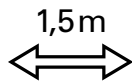

HEALTH GUIDELINES FOR MYKITA SHOPS

The health and well-being of our global community is our top priority. To protect our customers and employees, the following hygiene precautions apply in MYKITA Shops:

Protective measures for customers and employees

Limited number of shop visitors¹

Maintain personal distance¹

Hand disinfection at entrance²

Protective face mask³

Observe hygiene instructions⁴

No self-service

Card payment only

Eye protection for employees⁵

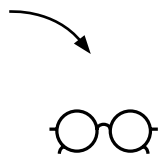

Disposable gloves for employees⁶

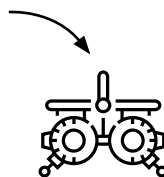

Protective measures against surface contamination

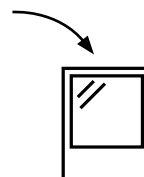

Regular disinfection⁷

Products⁷

Devices⁷

Surfaces⁷

Additional explanation:

1. By limiting the number of customers entering the shop, it is guaranteed that only one customer per 10-square-metre area is in the shop at any one time; the personal distance of 1.5 metres applies.

2. Customers are asked to sanitise their hands carefully when entering a MYKITA Shop – appropriate and approved disinfectant is made visibly available to customers in the entrance area.

3. All shop employees wear a protective mask; customers are also asked to wear a protective mask.

4. The currently approved hygiene measures must be observed and complied with. Main rule: Wash your hands regularly and thoroughly, and avoid touching your face.

5. In addition to protective face masks, MYKITA Shop employees must use eye protection to prevent droplet exposure.

6. Disposable gloves must be changed before each new contact with a customer.

7. All surfaces are regularly disinfected. This includes frames that have been tried on or handled, measuring instruments and shop fittings, such as tables, chairs and mirrors. Cleaning and disinfecting agents with sufficient virucidal effect are provided by MYKITA.

Up-to-date information on safety precautions, opening hours of MYKITA shops and practical support can be found on our Covid-19 page (<https://mykita.com/de/covid-19-response>).
